

Creature of the Night

Creature of the Night  
I want to touch you  
Creature of the Night  
I'm under your spell  
Creature of the Night  
I need to feel you  
Creature of the Night  
Are you straight from Hell

Another day  
Without your love  
Will drive me mad  
Like the stars above

Crazy thoughts  
Fires are burning  
Strange emotions  
Tides are turning

Chorus

When you were hit  
By laser beams  
You gave me a smile  
Or whatever it means

Your body's moving  
Soft and yearning  
I lost control  
'Till early morning

Chorus

I really can't forget you babe

No matter how I try no way  
'Till sunrise I will walk these lonely streets again  
I can hear the shadows calling your name

Chorus..
